Strategy

As a fast growing company in Canada, OUBA aims to be a pioneer in natural and medical products in Canada, Europe and Middle East through the creation of new concepts in marketing of all products working on improving the health of people and increase their quality of life. Maximize health and wellness benefits. Increasing the medical knowledge that is at the forefront of the latest developments in beauty, health, and body care.

Mission

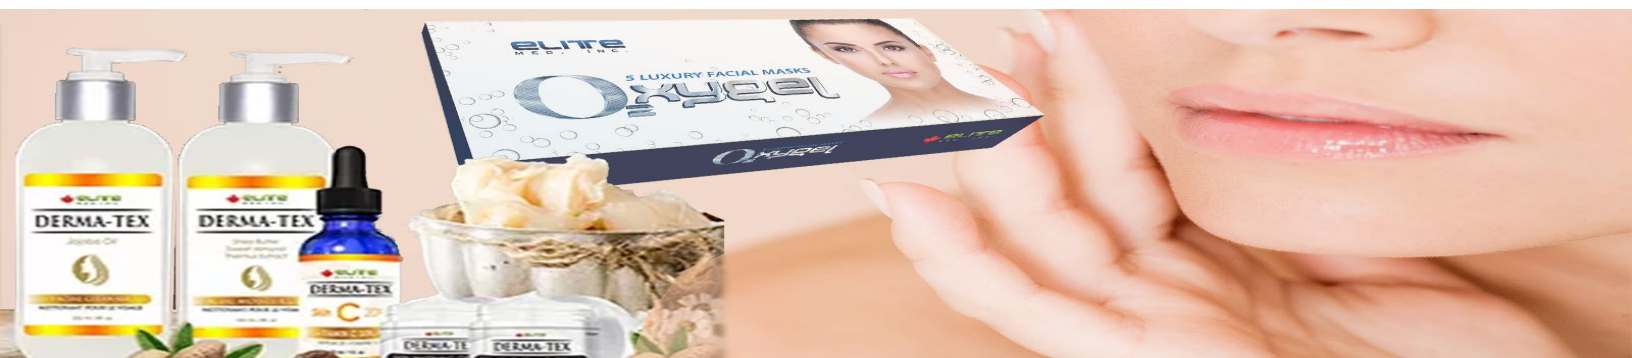

To improve the health and lives of people by promoting and developing the latest, safest and most effective natural and medical products worldwide; through the introduction of new innovative concepts supported by a state of the art manufacturing facility complying with the FDA, the Canadian, European and GCC or GMP standards and requirements. Also, through medical trainings for the health professionals and interested people.

Vision

Our vision to be a Nutraceutical, Pharmaceutical and medical supplies market leader in Canada Europe, and the distant parts of Asia, while being acknowledged among the top 10 leading corporates in the Canadian incorporation and medical training centers. Expansion for our sister companies at different countries of the world.

Value

Providing the best products of medical products & supplements, offering an international distributor for a wide range of natural health products, supplements, hair & skin care products. Providing our customer with all innovative & premium products to meet their needs, satisfaction, and improve their health.

Courses

Courses Taught by experienced American Heart Association and Heart and Stroke Foundation Instructors with a clinical background

1-Basic Life Support (BLS)

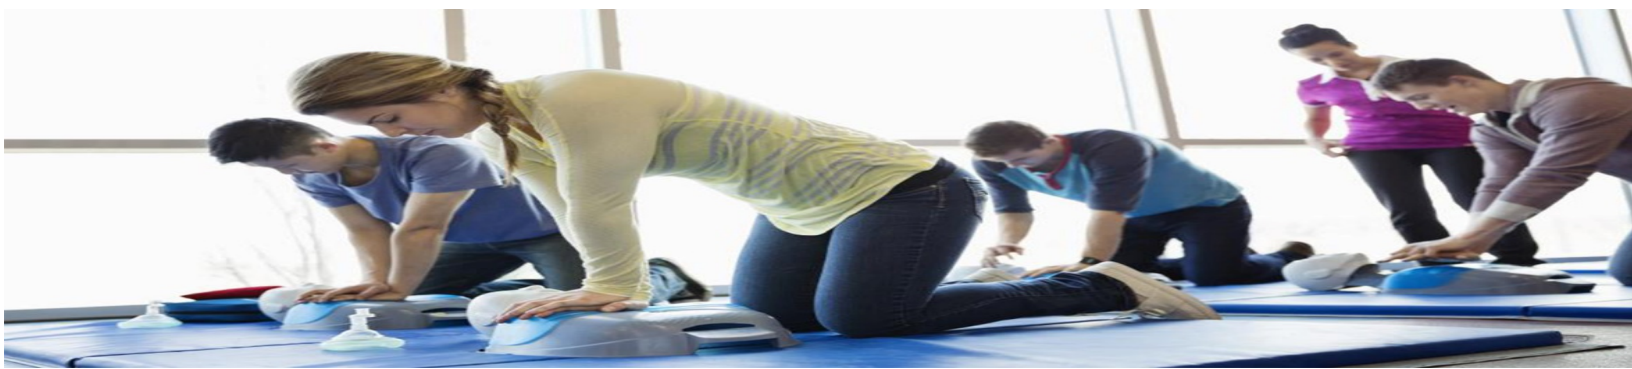

Basic Life Support (BLS) is the foundation for saving lives. It is designed for healthcare providers and trained first responders who provide care to patients in a wide variety of settings or by those in a healthcare training program.

2-ACLS

Advanced Cardiovascular Life Support (ACLS) is the pre-eminent resuscitation course for the recognition and intervention of cardiopulmonary arrest or other cardiovascular emergencies.

3-PEARS

The Pediatric Emergency Assessment, Recognition and Stabilization (PEARS) Provider course is an intermediary pediatric skills course that builds on BLS concepts and can be a stepping stone towards certification in pediatric advanced life support (PALS).

4-PALS:

Both initial and renewal courses are available. We have an outreach program where we will come to you and teach the courses at a place and time suitable for your staff. If interested, please do not hesitate to [contact](#) us.

We are looking forward to transacting with you and providing your hospital / organization / clinic with our exceptional services in the near future.

We are affiliated as well with the **Heart and Stroke Foundation of Canada** and have amazing instructors who provide stress-free learning environments for courses required by healthcare professionals. Please the form below to apply for any course and if you have any question, we are eager to hear from you:
